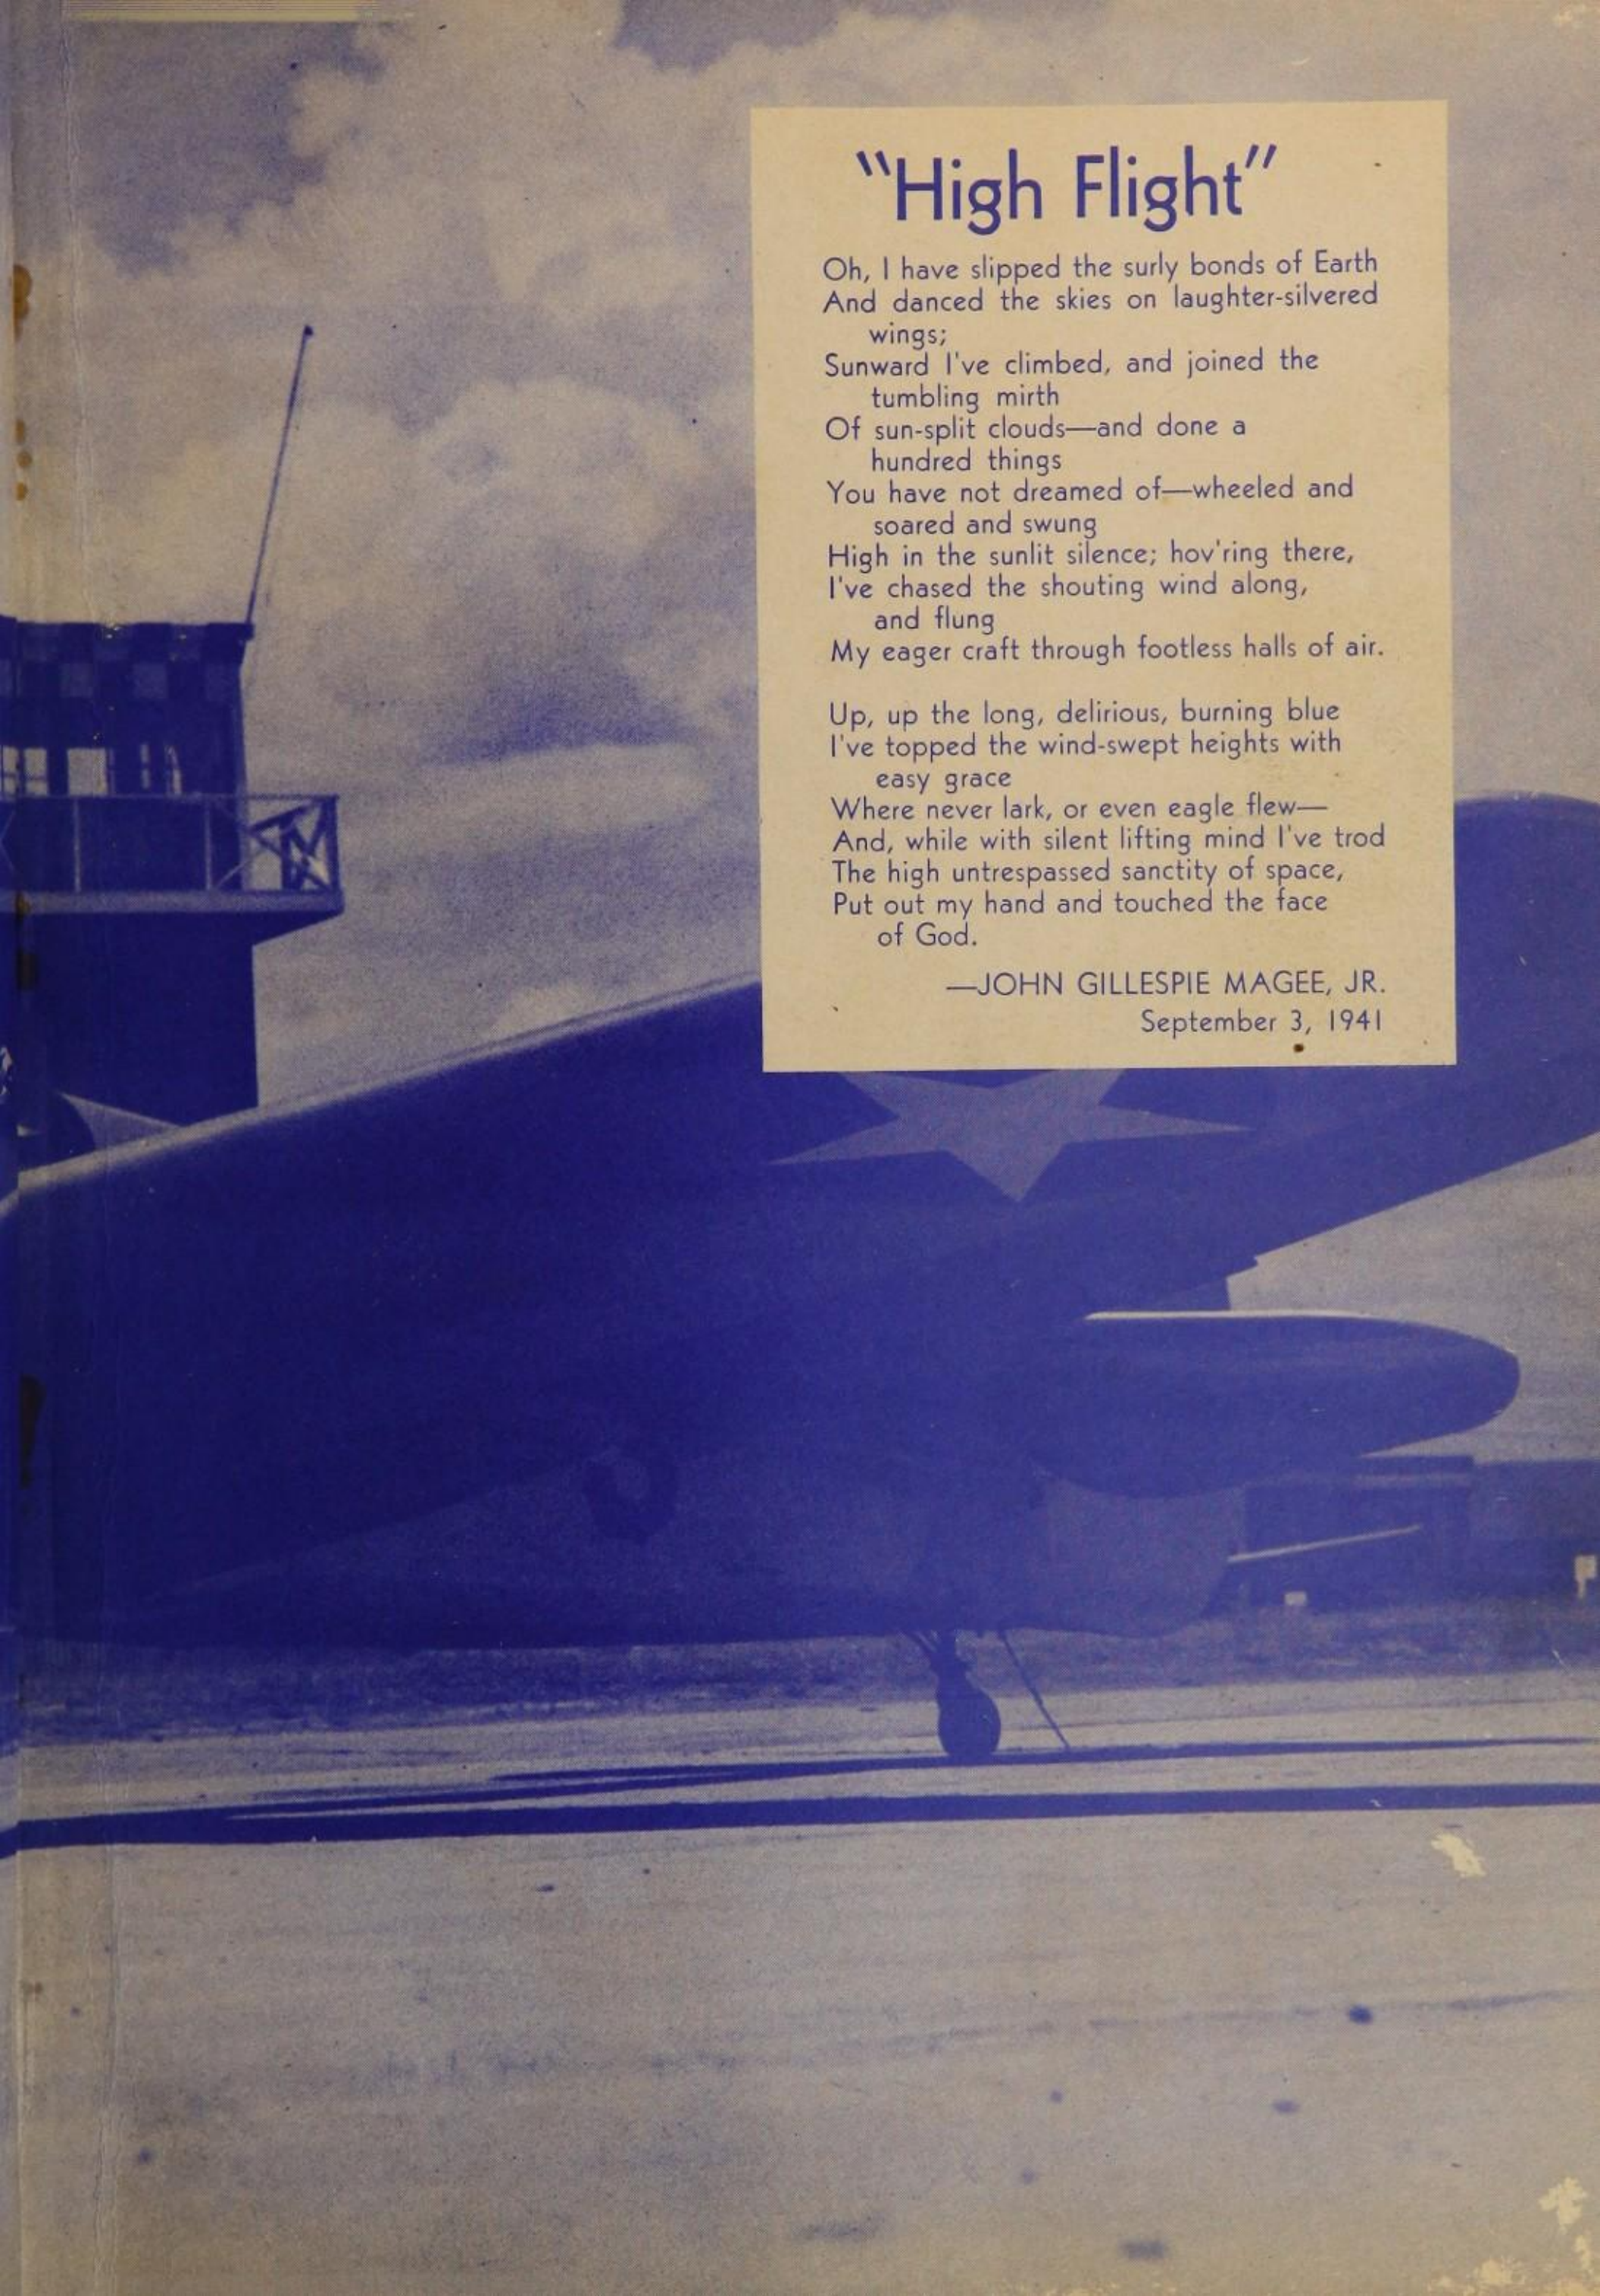
VICTORY FIELD

VERNON, TEXAS



"High Flight"

Oh, I have slipped the surly bonds of Earth
And danced the skies on laughter-silvered
wings;
Sunward I've climbed, and joined the
tumbling mirth
Of sun-split clouds—and done a
hundred things
You have not dreamed of—wheeled and
soared and swung
High in the sunlit silence; hov'ring there,
I've chased the shouting wind along,
and flung
My eager craft through footless halls of air.

Up, up the long, delirious, burning blue
I've topped the wind-swept heights with
easy grace
Where never lark, or even eagle flew—
And, while with silent lifting mind I've trod
The high untrespassed sanctity of space,
Put out my hand and touched the face
of God.

DEDICATION

We of the class of 44-F dedicate our book to Mother for her unfailing love and devotion to us. It was through her trials and tribulations that we were brought into this world and made what we are today by her Motherly tenderness and affectionate guidance. Many times when everything seems to have gone wrong Mother accepted all our troubles as her own and led us out of our darkest gloom into the light. Today we are training to be a part of the greatest air force in the world and although physically we are many miles from our Mothers' arms our maternal breeding remains with us constantly throughout our every move.

You men with wings
And Cadets too,
Listen—
For I speak to you:
I want a favor
Of each of you,
While you're up there
In the blue.
I ask of you,
Yes you who fly,
To give your best
And always try.
For you are picked
You're just a few
Of all the men
Who came here new.
We all tried hard
To no avail.
There's some of us
Who had to fail.
So bear for us
Our standard high
And write our tale
Across the sky.
While you're out there
Across the sea
Trying to win
A victory—
Remember us
Your pals so true,
We'll always ride
Up there with you.
You're the best
I'm proud to say,
Just let me clean
Your guns some day.
Or maybe fix
Your motor, too,
So you can stay up
In the blue.
I'll be around
Though I can't fly—
I'll keep you up there
In the sky.
